

Caring

We treat everyone with dignity and respect. We support people through clear communication, actively listening and responding to their needs.

I will continue to show how much I care about Crossroads Together by always promoting the company favourably

I will continue to care for my colleagues and the support workers by treating them with respect and dignity

I will continue to care for all our clients we support across all areas by listening and responding to their needs

I would listen to their requirements, and respond with clear communication to help their needs

I will make sure I am caring, have empathy, compassion and courage to complete all my tasks. I am also committed to my job and clients and will be a good communicator

I will listen to the client's needs and treat them with respect. I will make sure I am closing doors and curtains when providing personal care, and communicating with them throughout the visit
